

PARAGUAY

Candidate for the ITU Council

2027 - 2030

PARAGUAY

The Republic of Paraguay has been a member of the ITU since 1927 and has had the honor of serving at the Union Council for the Americas for the period 2023-2026.

With the ITU, we recently organized important events in the Americas, such as the Regional Development Forum for Americas 2025 and the Regional Preparatory Meeting for the World Telecommunication Development Conference 2025 (WTDC-25).

At the Union, we have learned to find solutions to our challenges through dialogue, tireless effort, understanding other's points of view, and their genuine interest. For these reasons, Paraguay has been able to participate more actively in the various Sectors and bodies of the Union, always defending its interests and promoting more equitable conditions for States with particular geographical characteristics. Thus, in the fora where we have participated, we presented our vision, which, in our understanding, also represents the position of a significant number of Member States in similar situations.

WE ASK FOR YOUR SUPPORT BECAUSE

We firmly believe in international cooperation as a means to improve and rationally use of Telecommunications.

We encourage a fully connected world that goes hand in hand with the development of Information and Communication Technologies.

Our commitment to reducing the digital divide, for the benefit of all people, is unwavering, and we are convinced that Telecommunications serve as catalysts for the development of societies.
